

Monitor Bravo

Bravo is the video entry phone with a simple and elegant design, adaptable to all types of dwelling. Each detail has been created to ensure elegance, functionality and simple management.

The chrome keys, the brilliant white gloss finish combined with the silver colour base combined with the etched glass effect facia are just some of the details which make Bravo an exclusive reference point in the sector.

Coloured templates allow personalisation of the monitor, adapting it to all tastes.

Simplebus Color | Bravo Monitor Bravo

5702 Bravo HANDSET version COLOR Monitor

Handset version Bravo monitor with 4" colour screen, white gloss colour, with silver bottom cover. It is fitted as standard with door opener pushbuttons and two pushbuttons for various functions, signalling LED, brightness adjustment, colour adjustment, and slide call volume adjustment. The "Privacy" function, which allows the video entry phone call to be temporarily excluded, is standard and is obtained by positioning the call volume on zero. It can be converted into the desk version with art. 5712.
Dimensions: 212x225x55 mm

5714C Bracket for Simplebus Color cabling for BRAVO HANDSET version Monitor

Bracket for digital Simplebus Colour system needed to complete the Bravo handset version monitor. The bracket is complete with conversation privacy. The standard pushbuttons on the monitor take on the function of door opener pushbutton, porter switchboard call (alternatively, this can be set as a control for actuator art. 1256) or free pushbutton (C/N.O.) and internal lighting pushbutton or video request. It manages the floor door call and call repetition as standard. Complete with DIP SWITCH with 8 positions for programming the user code. Addition of the pushbutton card art. 5733 allows availability of 4 supplementary pushbuttons. All the pushbuttons can be programmed by means of programmer art. 1251/A which allows the various functions to be set. Fitted with branch terminal art. 1214/2C.

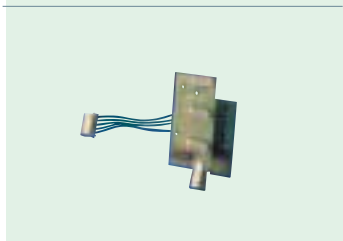

5714CI Bracket for Simplebus Color cabling for BRAVO HANDSET version Monitor for intercom function

Bracket for digital Simplebus 2 system needed to complete the Bravo handset version monitor. The bracket is complete with conversation privacy. The standard pushbuttons on the monitor take on the function of door opener pushbutton, porter switchboard call (alternatively, this can be set as a control for actuator art. 1256) or free pushbutton (C/N.O.) and internal lighting pushbutton or video request. It manages the floor door call and call repetition as standard. Complete with DIP SWITCH with 8 positions for programming the user code. Addition of the pushbutton card art. 5733 allows availability of 4 supplementary pushbuttons. All the pushbuttons can be programmed by means of programmer art. 1251/A which allows the various functions to be set.
